KS2 PRIMARY TEACHER CPD

“TEACHING RATIO AND PROPORTION AT KS2”

This course will focus on teaching ratio and proportion through the use of problem-solving questions. It will cover visual techniques such as the bar model and relating ratio and proportion to fractions, decimals, percentages and division

We are happy to provide continued support for any maths topic following these sessions and we can arrange visits to your school on request.

This is a free Primary Teacher event, booking is required as numbers are limited
