

# Accessing the Intranet from Home

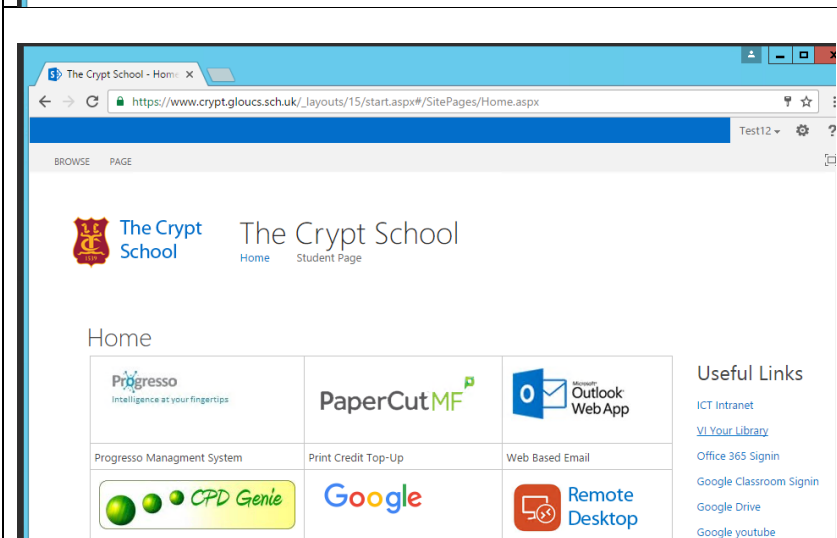

Please make sure if you are using a school laptop that you are on your home side and not your crypt side as this may give odd error messages like: This page cannot be displayed.

Go to the School Website  
[www.cryptschool.org](http://www.cryptschool.org)  
At the top left choose school sites  
and pick Intranet

You should be presented with a  
Authentication Box  
In here you need to put your school  
Username and Password. HOWEVER  
you need to present your username  
like this: **crypt\username** which in  
most cases will be  
**crypt\firstname.lastname**

You will then be presented with the  
Intranet and the departments should  
be listed down the Left Side.

Should you be unable to Log in  
please use the Firefox web browser  
instead of Internet explorer.
